This email confirms that we will be refunding the permit fee that you submitted for the cabin, deck and holding tank. Your plan is to apply to the Planning Commission for floodproofing the structure instead of bringing in fill. As we have discussed, the fill may be an issue because of the wetlands very near the structure. You can apply for floodproofing on our web site.

I will be glad to help where I can, so please let me know if you have any questions. If I can't answer them, I'll direct you to one of the staff members that deal more directly with the Conditional Use Permits (floodproofing).
