RE: Parcel ID #07-1-085300 Permit Application #41777

Donald & Christine Rausch 19648 Hudson Circle NW Elk River, MN 55330

Dear Mr. & Mrs. Rausch:

This letter confirms our discussion regarding the above-referenced permit. Permit #41777 is denied, because the structure was built using shoreline averaging in 1999. A copy of the front page of the 1999 permit (#25249) is attached. Building a structure with shoreline averaging requires a variance approval for any additions.

The building is not eligible for the one-time 50% volume expansion, because it was not constructed prior to January 21, 1992.

Please call me at 218-927-7342 with any questions you have. Peter Gansen and Kalea Suikkonen are the staff that attend the variance meetings, but I can certainly help with your questions. I have submitted a request to refund this permit application fee (\$200), but it does take some time to process.

Sincerely.

Becky Sovde Wetland Specialist/Compliance Officer Aitkin County
