Hi Debra,

Thank you for the updated floor plan. Please update the following information on the application for it to be processed for inspection:

- Provide an updated site plan with the distance to the lake, top of bluff, property line, road, septic tank, and drainfield.
- Update the *Project Description* with new size of cabin and sizes of any attached deck/patio/porch/garage.
- Update the square footage of new residence including attached deck/patio/porch/garage as one item.

Does the 30 yards of excavation include the walk out basement?

Below is a direct link to the application to make those revisions. If you have any questions don't hesitate to call.

Good Morning Becky –

Per your message below, I have attached a plan for the “footprint” of the proposed cabin for 33182 457th Place, Aitkin, MN.

It may be several weeks before we get back up there to actually mark the property. When Chuck was up there last time it got dark before he was able to get it done.

We wanted you to have this for now. Please let us know if you have any questions.

Thank you!

Have a wonderful Thanksgiving!!

Debbie and Chuck Siebert

Debra –

I met Chuck and Terry Betley on site several weeks ago. Chuck was going to submit a new plan for the permit based on the bluff line on site. I have notes in the file about that. It may need another onsite when the plan is submitted. We have moved the permit to “incomplete” until we get the plan.

I will be on vacation, so a good contact in the office is Shannon, who is fairly familiar with it.

Becky
