RE: Permit Application UID# 197518, Parcel # 12-0-017300

Frank Rekuski
3170 Hamline Ave N
Arden Hills, MN 55112

Dear Mr. Rekuski:

Our office received check# 9067 in the amount of \$150 for an incomplete permit application for a holding tank septic system. There was not a design or soil information presented in the application.

The parcel was subdivided in past years and our office has no record that two 5,000 square foot standard septic sites have been identified, along with a 3,000 square foot building site. No permits will be issued on parcel # 12-0-017300 until this information is received.

For this reason the application is denied and check # 9067 is being returned to you.

If you have any questions please contact the Planning & Zoning office at 218-927-7342.

Sincerely,

Shannon W.
