ZONING ADMINISTRATOR

Conditions:

1. You need a silt fence at the lake to prevent silt from getting into the lake until the vegetation is growing in the disturbed area.
2. No further vegetation removal on the property without a permit.
3. Revegetation of the excavated area ASAP
4. Beveling the sides of the excavation back three feet to slow erosion along the excavated area.
5. Placement of 2 coir logs (10 foot sections one top of the other) at the edge of the lake directly below the excavated area to help hold the sediment along the shore until ground is revegetated.
