Eric and Sandra Jensen:

Our office has reviewed your application for a land use permit. It appears the project does not meet the required property line setback. The proposed project appears to require variance approval. Based on this information the current permit application # App-2019-004827 is denied. Our office will refund your permit fee.

Variance info can be found on the Aitkin County website at:

<https://www.co.aitkin.mn.us/departments/enviro-svcs/variance-applicants.html>

If you have any questions that need clarification, please contact me at 218-927-7342.

Sincerely,
Peter Gansen
