Mr. Calder,

Your permit request for a 20'x30' residence addition has been received. After review, our records show the existing residence and deck were granted a variance in 1986 from the required 100 foot lake setback to build at 50 feet from the lake. If a structure was built with a variance, any addition or increase in size to that structure would also require a variance.

For this reason, your permit application is being denied and a refund will be issued back to your card. If you are interested in applying for a variance please follow this link for the application and information: <https://www.co.aitkin.mn.us/departments/enviro-svcs/variance-applicants.html>
If you have any questions on the variance process, please contact Planning & Zoning at 218-927-7342.

Variance Applicant Instructions - Aitkin County, Minnesota

"Our Mission is to provide outstanding service in a fiscally responsible manner through innovation and collaboration with respect for all"
