November 19, 2021

Here's the structural information the inspector requested for the billboards going on R & R Landscaping property by Carl Advertising, LLC. It was prepared by Duffy Engineering that complies with MN state design requirements.

Please note the underlined information in the letter that states that the drawing is for 12X40 size billboards and smaller and will be applied to the 2 12X24 signs we are installing.

Thank you for your service,

Bob Carl, Carl Advertising, LLC.
