Compliance inspection report form Existing Subsurface Sewage Treatment System (SSTS)

Doc Type: Compliance and Enforcement

Instructions: Inspector must submit completed form to Local Governmental Unit (LGU) and system owner within 15 days of final determination of compliance or noncompliance. Instructions for filling out this form are located on the Minnesota Pollution Control Agency (MPCA) website at https://www.pca.state.mn.us/sites/default/files/wq-wwists4-31a.pdf.

Property information	Local tracking number:
Parcel ID# or Sec/Twp/Range: 29-1-164000	Reason for Inspection
Local regulatory authority info: Aitkin county planning and zon	ing Phone#218-927-7342
Property address: 19036 484 th . st.,McGregor,MN.55760	
Owner/representative: Christopher Schieffer	Owner's phone:
Brief system description: 1350 gallon septic tank that gravity dr pressure bed	ains into a 650 gallon pump tank that pumps up hill into a 7' x 54'
System status	
System status on date (mm/dd/yyyy): 6/24/2022	
□ Compliant – Certificate of compliance*	☐ Noncompliant – Notice of noncompliance
Valid for 3 years from report date unless evidence of an imminent threat to public health or safety requiring removal and	Systems failing to protect ground water must be upgraded, replaced, or use discontinued within the time required by local ordinance.
abatement under section 145A.04, subdivision 8 is discovered or a shorter time frame exists in Local Ordinance.)	An imminent threat to public health and safety (ITPHS) must be
Note: Compliance indicates conformance with Minn. R. 7080.1500 as of system status date above and does not guarantee future performance.	upgraded, replaced, or its use discontinued within ten months of receipt of this notice or within a shorter period if required by local ordinance or under section 145A.04 subdivision 8.
Reason(s) for noncompliance (check all applical	ble)
☐ Impact on public health (Compliance component #1) – Imminent threat to public health and safety
☐ Tank integrity (Compliance component #2) – Failing	g to protect groundwater
Other Compliance Conditions (Compliance compon	ent #3) – Imminent threat to public health and safety
Other Compliance Conditions (Compliance compon

Drainfield meets the designed vertical separation distance from periodically saturated soil or bedrock.				

Describe verification methods and results:

Upgrade requirements: (Minn. Stat. § 115.55) An imminent threat to public health and safety (ITPHS) must be upgraded, replaced, or its use discontinued within ten months of receipt of this notice or within a shorter period if required by local ordinance. If the system is failing to protect ground water, the system must be upgraded, replaced, or its use discontinued within the time required by local ordinance. If an existing system is not failing as defined in law, and has at least two feet of design soil separation, then the system need not be upgraded, repaired, replaced, or its use discontinued, notwithstanding any local ordinance that is more strict. This provision does not apply to systems in shoreland areas, Wellhead Protection Areas, or those used in connection with food, beverage, and lodging establishments as defined in law.
