Restoration Plan

07-1-109500 & 07-1-109600

## Waterbar example

Can either be small dirt rows that are vegetated or an accepted material providing the same concept.

Sand must be removed and/or permitted as a sand patio which would need a minimum of a 10' vegetative buffer between patio and ordinary high water level (OHWL)

8/15/22, 11:53 AM

Shed to be permitted as a water oriented accessory structure. \*Submitted\*

8/15/22, 11:53 AM

Land alteration permit needs to be submitted for earthwork being conducted on the parcels.

Will have 1 year from approved permit to bring parcels into compliance with Aitkin County's Shoreland Management Ordinance.
