Re: Operating Permit #OP 113-2023
App-2024-000375
Parcel # 29-1-457100

Dear Permittee:

This letter is to inform you that your Operating Permit has been renewed until 09/30/2028.

Please adhere to your monitoring and maintenance contract including monitoring your water use. Failure to do so would violate the agreement to operate your system and could void the operating permit. You should contact your Service Provider/Inspector directly with questions that you may have during the year.

Thank you for your good stewardship and we hope that your system continues to operate well, protecting groundwater for you and the environment.

Sincerely,

Aitkin County Planning & Zoning
