System Information

Flow Meter Make/Model:		
Which system is the Flow Meter on? (select a box)	Well	Septic

<u>Directions</u>: A requirement of an operating permit or VSTR Interim Use Permit is to have a flow measuring device (event counter, water meter, etc.) installed on your septic system and monitored on a Monthly basis. If the property is seasonal and is not used during certain months, please note. <u>Report this log of readings to</u> <u>Aitkin County Environmental Services</u> or your Service Provider/Inspector when the operating permit is due for renewal, or at the annual inspection for Vacation/Short-Term Rentals.
