Hi Julie,

I am writing in regards to your permit application to expand your existing 12 foot x 20 foot garage to a 24 foot x 36 foot garage. The application is being denied and will need a variance for your proposed project. The reason for denial is that the existing garage is not meeting Aitkin County's setback requirement of 30 feet from the road right-of-way. I have attached the historical permit file for your review.

Our variance application and requirements can be found here: <https://www.co.aitkin.mn.us/departments/enviro-svcs/variance-applicants.html>

Let me know if you have any questions.

Thank you,

Kalea Suihkonen
